

INOCare X'TRA PLUS

INOCare X'tra Plus is an alkaline water-based cleaning product which is perfectly suited for the deep-cleaning of ceramic and chrome anilox rollers for the gravure, offset and flexographic printing. Our special product solves UV and water-based inks on anilox rollers, printing rollers, printing cylinders and printing plates.

APPLICATION AREA

- Cleaning of anilox rollers
- Not suitable for aluminum surfaces

TEMPERATURE RANGE

- 5°C to 50°C

MIXING RATIO

- Can be used undiluted
- Can be diluted up to a ratio of 1:100

COLOR

- Brown

PH-VALUE

- 13-14

MARKING

- Labeling according to INOCare material safety data sheet

CHEMICAL BASIS

- Alkaline cleaner

CONTAINER SIZE

- 1 liter
- 10 liter

APPLICATION

Spray the cleaner onto the surface previously wetted with water, undiluted or diluted up to 1:10 depending on the degree of pollution, then apply it using a suitable tool, and let it soak for 5 minutes. When cleaning rollers, perform a deep cleaning with a sponge soaked in warm water. Afterwards, rinse the sponge with a highly diluted (1:100) solution. Repeat the process for persistent or heavily dried inks.

Stand: 05/2016
